Plan Provisions

State Variations

Plan design, benefits, features, provisions, definitions and exclusions may vary by state. Refer to the State Variations sheet for state-specific benefits, provisions and exclusions.

Office Visit Copay (optional feature)

With this benefit, a copay is your only cost for an eligible network office visit. Any associated imaging and laboratory service are covered subject to deductible and coinsurance, but are not eligible for benefits under the office visit copay.

After the 12-month waiting period, preventive services performed by a network provider during an office visit, such as immunizations and annual examinations, are covered by the office visit copay. Any associated imaging and laboratory services, such as mammograms and PSA tests, are covered subject to deductible and coinsurance.

Other services that are subject to deductible and coinsurance, but not eligible for benefits under the office visit copay, are: office visits with non-participating providers, surgical procedures and allergy tests.

Medically Necessary Care

Treatment must be medically necessary to be covered. Medically necessary services or supplies must be:

- Appropriate and consistent with the diagnosis
- Commonly accepted as proper treatment
- Reasonably expected to result in improvement of the condition
- Provided in the least intensive setting without affecting the quality of medical care provided.

Usual and Customary Charge Allowance

The usual and customary charge allowance is the most the plan pays for covered services on non-PPO plans. The covered person is responsible for paying any balance in excess of the usual and customary charge allowance to the provider.

Network Services

When a covered person uses network providers, covered charges are discounted in accordance with a negotiated rate. The person never pays more than the negotiated rate for services from a network provider.

Out-of-Network Services

Emergencies: Covered services are always paid at the network benefit percentage — even if rendered by a provider outside of the network. Though paid at the better benefit percentage, the most the plan pays for a service is the amount of the network negotiated rate. The covered person is responsible for paying any balance in excess of the negotiated rate to the provider.

Non-emergencies: Covered services are subject to the out-of-network deductible, a 20% benefit percentage reduction, the increased out-of-network coinsurance out-of-pocket maximum and the network negotiated rate. Consequently, the covered person is also responsible for paying any balance in excess of the negotiated rate. See the chart below for details.

RIGHTSTART – OUT-OF-NETWORK COSTS*	
OUT-OF-NETWORK DEDUCTIBLE	
Individual	Family
Selected deductible + \$1,000	3x individual out-of-network deductible met collectively by 3 or more persons
OUT-OF-NETWORK COINSURANCE OUT-OF-POCKET MAXIMUM	
Individual	Family
\$8,000	\$16,000

* Varies by state.

Utilization Review

Authorization is required before receiving inpatient treatment and certain types of outpatient procedures. Unauthorized services will result in a penalty of 25% of the charge (up to \$1,000). Unauthorized transplants are not covered.

Pre-Existing Conditions

A pre-existing condition is an illness or injury and related complications for which, during the 12-month period immediately prior to the effective date of your health insurance coverage: 1) you sought, received or were recommended medical advice, consultation, diagnosis, care or treatment, 2) prescription drugs were prescribed, 3) symptoms were produced, or 4) diagnosis was possible. No benefits are paid for charges incurred due to a pre-existing condition until you have been continuously insured under the plan for 12 months, unless the condition was fully disclosed on the application. After the 12-month period, benefits are paid for a pre-existing condition, unless the condition is specifically excluded from coverage.
